THE AMERICAN DOLLAR

THE United States has been, ever since it obtained its first loan from France, shortly subsequent to its Declaration of Independence, a debtor nation. The wealth of its farms and its mines, its railways and its factories, has gone in a large measure to the holders of securities beyond the sea. Uncle Sam was "working out a dead horse."

Now the tide has turned and the flood of gold is sweeping back to these shores. If the war should continue for another six months, and there is no assurance that it will have an earlier termination, this nation will possess practically all the coined gold in the world and will have in addition a quantity of gilt-edged securities and some that are more or less shaky in their intrinsic or redemptional value.

The two brief paragraphs foregoing are the composite of two days' reading of the world's expression on the present situation. Thus the Bonanza may neither take nor seek any title to originality, but simply has hammered down, sawed off, sifted and filtered the thought of the world's thinkers. After the gold comes, what will happen? Silver will indubitably rise to a ratio of about 28 to 1. That means ten thousand people in Tonopah and not one of them idle or dependent upon any one who is out of employment.

MINING BRINGS PROSPERITY

A HALF year or more has passed since the revival in western mining became prominently apparent and during that period many new shippers and various dividend payers have entered the lists, says Denver Mining Record. With the onward march of the months, mining profits have shown a steady increase in keeping with the enlarged activity of the camps. This new wealth is, to a very noticeable extent, beginning to make its influence felt in all lines of commercial endeavor, particularly in the west. Reports show general and encouraging betterment in business conditions, while labor is more extensively employed than for several years. That the money flowing from the mines into the trade arteries of the west will increase in volume rather than diminish is logically to be expected. All signs and portents indicate a more prosperous fall and winter than was experienced in 1914. Since mining ranks second to agriculture in importance, a revival in metal production means much to the country in the widespread dissemination of prosperity.

WHY THESE IDLE, EVEN MALICIOUS RUMORS?

THE rumor market is overcrowded in Tonopah and something should really be done to the fellow who comes to you with an uncanny story. He should be compelled to produce his proofs or forever after hold his peace. Now it isn't the hen gossips that are particularly referred to here, but the roosters, who are the worse of the two, because their clamor erow resounds farther. One of the tribe started the story Sunday morning that the Dardanelles had fallen to the allies and that nineteen battleships had been sunk, furthermore that the Bonanza got the story over the Associated Press wire, which didn't happen at all, or any part of it. Then came the story that Jack Lamb had been horribly mutilated by being caught in the shieve wheel of the Wandering Boy, when as a matter of fact he was overcome by gas and the shieve wheel incident was not accompanied by any material damage. The idle tongue is difficult for its owner to control, but so is the ear of the listener.

Visitors to the Panama-Pacific exposition comment on the fact that Goldfield has no photograph in the mining exhibit. The handsome panoramic view loaned the committee by the National Realty and Investment company is one of the best and largest ever taken of Tonopah and excites much favorable comment. So many visitors, particularly from the east, have read much of Goldfield, and they are greatly disappointed by the absence of a good photograph of that camp.

With nothing else to do yesterday the Bonanza man waded through a long treatise on the oyster by the United States Bureau of Fisheries and learned how this insect swims far and wide, together with other hitherto unknown information of interest, but no matter how easy it is to slip this bilvalve down into the digestive organs, one thing the Bonanza could not swallow would be a solemn assertion by the government that they can talk intelligently.

AUTO THIEVES BOUND OVER TO DISTRICT COURT

In the justice court at Gardnerville Wednesday G. E. Fox and Robert Morrison were bound over to the district court on the charge of grand larceny, it being alleged that the two men, accompanied by a woman, appropriated a car in Gardnerville a few weeks ago and took a joy ride to Salt Lake where they were apprehended and returned to Gardnerville for trial.

ANNOUNCEMENT

The following prices f. o. b. Detroit, effective August 2, 1915:

Ford Runabout	\$390.00
Ford Touring Car	440.00
Ford Town Car	640.00

No speedometer included in this year's equipment, otherwise cars fully equipped.

There can be no assurance given against an advance in these prices at any time. We guarantee, however, that there will be no reduction in these prices prior to August 1, 1916.

Profit-Sharing with Retail Buyers

On August 1, 1914, we made the announcement that if we could make and sell at retail 200,000 Ford cars between Aug. 1, 1914, and Aug. 1, 1915, we would share profits with retail purchasers to the extent of from \$40 to \$60 on each car.

We have sold over 360,000 Ford cars in the time specified, and profit-sharing checks of \$50 each will be distributed as rapidly as possible after August 15, 1915. Retail purchasers who have not yet mailed us their profit-sharing coupons, properly endorsed, should do so without delay.

Our plan to profit-share with retail purchasers of Ford cars during 1914-15 has been most successful. We thoroughly believe in it, but, realizing the uncertainty of conditions generally makes it advisable to defer any announcement of future profit-sharing until a later date. We are, however, confident of our inability to reduce costs for several months, and therefore can offer no profit-sharing for cars delivered during August, September and October, 1915.
